FUR EVERYTHING

And the fuzz-buzz goes on.

Anything that can be made furry will be made furry. At **American Two Shot** in NYC, oddball items like koozies get the fuzzy treatment. In Milan, at **Furry Lab**, give them any pair of shoes you like and they'll cover them with fur.

For some furspiration, look to Copenhagen brand **Saks Potts** for its on-point color combos and street style standout teddy bear jackets. Note: faux or real, **TOBE** thinks any kind of fur is good to go—just make sure you know your customer.

VICTORIA BECKHAM

VELVET TOO

Furs less furry sister.

Soft and with just as much eye appeal as fur, velvet stays on **TOBE**'s radar for all seasons. **Attico** sparked our obsession last FW '16 with its velvet wrap dresses, continuing into spring with a slip dress version. **Victoria Beckham** does velvet for all climes, showing tracksuits and bra tops in the crushed variety for SS '17.
